

Empower Me

CREATE POSITIVE, PROACTIVE AND LASTING CHANGES

Empower Me is a course which aims to empower the individual to make changes in their life to create positive, proactive and lasting changes.

This course aims to empower an individual by creating an improved self-awareness, increased self-confidence and a greater insight into the future and how they would like to be.

By first assessing where you are now in your life, the course will look at ways to improve motivation and how to use visualisation to imagine your future self.

Participants will work to understand what they want to do and more importantly, what is holding them back.

By recognising personal barriers, you can then work out a road map to take you past these obstacles by setting a clear action plan.

The course is all about confidence and communication and the course will build on these skills as well as teaching everyday techniques to empower you to make decisions, plan for your future and take your life into your own hands.

This is a 1 day course.
